

B.M.S. COLLEGE OF ENGINEERING, BENGALURU-19

(Autonomous Institute, Affiliated to VTU)

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING (DATA SCIENCE)

Academic Year 2025 – 2026 (Even Semester)

Next Gen Databases AAT Evaluation - (10 Marks)

		Excellent	Good	Fair	Poor
Selection & Justification of NoSQL Database	3	Appropriate NoSQL database selected with clear justification based on data type, scalability, consistency, and use case.	Suitable database selected with partial justification.	Database selected but justification is weak or generic.	Inappropriate database choice or no justification provided.
		2 marks	1.5 mark	1 mark	0.5 mark
Data Model & Schema Design	3	Well-designed NoSQL data model optimized for access patterns; effective use of collections/column families/graphs; normalization or denormalization justified.	Data model is correct but could be better optimized for queries or scalability.	Basic data model with limited consideration of access patterns.	Poor or incorrect data model design.
		2 marks	1.5 mark	1 mark	0.5 mark
Scalability, Performance & Consistency Evaluation	2	Clear evaluation of scalability, performance, and consistency (e.g., CAP trade-offs, sharding, replication).	Some discussion of scalability or performance aspects.	Minimal discussion without evidence or testing.	No evaluation performed.
		2 marks	1.5 mark	1 mark	0.5 mark
Report	2	Clear explanation of design decisions, experiments, observations, and conclusions.	Documentation is adequate but lacks depth.	Basic documentation with limited clarity.	Incomplete or unclear documentation.
		2 marks	1.5 mark	1 mark	0.5 mark
